

NURSERY SCHOOL

at the Lycée International Français
des Provinces Atlantiques

Allowing each child a successful first school experience is the major objective of nursery school. Endowed with an original identity and a culture adapted to the age and development of the children it welcomes, this full-time school is distinguished from elementary school by the pedagogy it implements.

The teachers take care to offer each child a living environment and an organization of activities that promote their autonomy and allow them time to experience their first experiences while committing it to new acquisitions. They accurately identify everyone's needs and create the conditions for chance discoveries. They encourage organized activity and maintain a sufficient level of requirement so that, in his games, the child constructs new ways of acting on the reality that surrounds him.

Nursery school is the educational and pedagogical base on which the learning that will be systematized in elementary school is based and developed. It is through play, action, independent research, sensory experience that the child, following a path of his own, builds his fundamental acquisitions.

GRADE	AGE
<i>Pré-Petite section</i>	2
<i>Petite section</i>	3
<i>Moyenne section</i>	4
<i>Grande section</i>	5

TIMETABLE IN NURSERY SCHOOL

SUBJECTS

HOURS
WEEKLY AVERAGE

Language	8h
Students acquire languages that allow them not only to communicate with those around them, but also to access culture.	
Living together	5h
Each child must learn to experience their freedom to act and to build new relationships with their classmates as well as with adults.	
Use your body to act and express yourself	4h
Children widen the scope of their experiences in environments and spaces that help them to know themselves better and to develop their physical abilities, which encourage them to adjust and diversify their actions, offer them a range of sensations and varied emotions.	
Discover the world	4h
The activities offered in this perspective gives students points of reference for ordering events in passing time and structure, the spaces they explore.	
Sensibility, imagination, creation	3h
The children must be able to search, invent, transform, express, experience the pleasure of creation.	
<i>Le mot du jour</i>	1h
An expression, a reading, a reflection, a game, an anecdote or a fact of life that makes you reflect, wonder, and that can give meaning to the day.	
Total	25h
